

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

PREFACE.

Vorrede.

In accomplishing the task of compiling a useful Dictionary, which might be serviceable not only to the native Englishman and American, but also to the German, as a book of reference both to the every-day reader and to the man of business, the author has particularly contemplated the supplying a deficiency sensibly felt, has consulted the best and newest sources and has endeavoured, by a judicious use of the scope allotted to him, to attain the highest degree of perfection possible.

His attention was particularly directed to the Technical Terms, not alone such as are already in general use in the fine and mechanical Arts and Sciences, but particularly to such as resulting from new inventions and institutions, have become naturalized, and to the insertion of numerous familiar american words and phrases, of Americanisms, taken partly in the primitive signification, partly including such english terms and phrases as have a peculiar signification in the writings and conversation of the Americans, and which, culled from the newest and best american authorities, are distinguished by *Italics*.

This valuable enlargement constitutes one of the chief merits of the work, in adverting to which the author deems himself the more justified, as, in this respect, the larger dictionaries mostly present an imperfect publication on the one hand, or nothing whatever on the other, while the importance and influence of American literature and manners are encreasing from day to day.

Bei Lösung der Aufgabe, ein praktisches Wörterbuch zu liefern, das den Engländer und Amerikaner sowohl als den Deutschen bei der Lectüre wie in der Umgangssprache und im Geschäftsleben genügend befriedige, hat der Verfasser vor allen Dingen das Bedürfnis der Gegenwart vor Augen gehabt, die besten und neuesten Quellen zu Rathe gezogen und durch zweckgemäße Raumeintheilung die möglichste Vollständigkeit zu erreichen gesucht.

Ein Gegenstand besonderer Aufmerksamkeit und Berücksichtigung waren ihm aber die sogenannten Kunstausdrücke, sowohl die schon vorhandenen, im Gebiete der Kunst und Industrie gebräuchlichen, die merkantilen, juristischen und nautischen, als vorzüglich die, welche als Ergebniß neuer Erfindungen und Einrichtungen in's Leben getreten sind, und die Aufnahme zahlreicher bekannter amerikanischer Wörter und Redensarten, Amerikanismen, theils im engeren Sinne des Wortes, theils solche englische Wörter und Redensarten, welche in Schrift- und Umgangssprache der Vereinigten Staaten in besonderen Bedeutungen vorkommen, und welche, den neuesten und geiegensten amerikanischen Werken entlehnt, zur Unterscheidung mit Cursivschrift gedruckt worden sind. Diese beachtenswerthe Bereicherung bildet einen der wesentlichen Vorzüge dieser Arbeit, welchen der Herausgeber um so mehr hervorzuheben sich berechtigt glaubt, als selbst die meisten größeren lexicallischen Werke hierin theils ganz Unvollständiges, theils wie alle andere Werke gleichen Umfangs gar Nichts bieten, während Bedeutung und Einfluß der amerikanischen Literatur und des amerikanischen Lebens ein täglich wachsendes Interesse in Anspruch nehmen.

Die richtige Aussprache und Betonung, ein wesentliches Erforderniß lexicallischer Erzeugnisse, ist im ersten Theile nach der Webster'schen, in American bekanntesten

In the first Volume each word is marked according to Webster's method of pronunciation and accentuation, the method most approved in America; and each page is provided with a Key. This is likewise the case in the second Volume, so that with the assistance of the Key and the mark of accentuation, the American student will be enabled to acquire a correct German pronunciation and accent with facility.

In each Volume the Imperfect Tense and the Participle of the simple irregular Verbs are inserted in crotchets; those of the Compound Verbs are designated by the abbreviation *irr.* By this means the author hopes to have facilitated the practical use of the work, and by adopting this method, to have rendered the annexation of a table of the irregular verbs superfluous. In the second Volume the letters *h* and *s* indicate whether the Verb is conjugated with the *irr.* Verb *haben* or *sein*; and to every declinable Substantive the Genitive Sing. and Nominative Plur. are adjoined: an advantage hitherto presented only by the more commendable and expensive publications of the kind, and one well calculated to enhance the usefulness of the work to the student of either nation.

Each Volume is furnished with a concise grammatical treatise and a collection of Dialogues, which the Publisher trusts will be found equally useful and profitable.

The use of types not too diminutive and hurtful to the eye, an object attained by judicious typographical economy, and a clear, legible print and good paper will tend to render the use of the work agreeable and easy.

The catalogue of proper names annexed to the first Volume is more copious and complete than is to be found in any Dictionary of equal compass.

und zweckmäßigsten Bezeichnungsart jedem Worte beigelegt und durch einen Key erläutert; dasselbe ist auch in Bezug auf den zweiten, deutsch-englischen, Theil geschehen, so daß es mittelst der angewendeten augenfälligen und entsprechenden Zeichen und mit Hilfe des voranstehenden Ausspracheschlüssels dem Amerikaner leicht sein wird, die richtige Aussprache und Betonung des Deutschen in kurzer Zeit und mit Leichtigkeit sich anzueignen.

In beiden Theilen ist bei den einfachen unregelmäßigen Zeitwörtern die Abweichung im Imperfect und Participle in Klammern eingeschaltet, bei den zusammengesetzten durch die Abkürzung *irr.* darauf hingewiesen. Der Herausgeber glaubt hiermit den praktischen Gebrauch erleichtert zu haben, indem er dadurch eine am Schluß des Werkes anzufügende Tabelle der unregelmäßigen Zeitwörter als an wenig passlicher Stelle, überflüssig gemacht hat. Im zweiten Theile ist durch ein beigelegtes *h* oder *s* angezeigt, ob das Zeitwort mit dem Hilfszeitworte *haben* oder *sein* umgewandelt wird, sowie auch bei jedem Hauptworte der Genitiv des Singulars und der Nominativ des Plurals — wo eine Beugung stattfindet — angegeben worden ist; ein bisher nur größeren und kostspieligen Werken angehöriger Vorzug, welcher den Werth dieser Arbeit für den Gebrauch des Engländers oder Amerikaners besonders hervorzuheben geeignet ist.

Jedem Theile ist eine kurzgefaßte Grammatik und eine Anzahl praktischer Gespräche beigelegt, von welchen der Herausgeber hofft, daß sie willkommen und von Nutzen sein werden.

Die durch eine zweckmäßige typographische Oekonomie möglich gewordene Verwendung einer für das Auge wohlthuenden nicht zu kleinen Schrift, sowie ein klarer Druck auf schönem Papier wird den Gebrauch angenehmer erleichtern.

Das am Schluß des ersten Bandes angefügte Verzeichniß von Eigennamen ist reicher und vollständiger, als es irgend ein ähnliches Wörterbuch gleichen Umfangs aufzuweisen hat.

PRACTISCHE UND STATISCHE NOTIZEN

FUER DAS BEDUERFNISS DER AUSWANDERER

NACH DEN VEREINIGTEN STAATEN VON NORD-AMERIKA.

Die Behörden von Bremen und Hamburg haben Verordnungen erlassen, nach welchen die Ueberfahrt der Auswanderer vor Betrügereien aller Art geschützt wird. Durch dieselben ist namentlich der Geschäftsbetrieb der Schiffmakler geordnet (jede Uebertragung mit Strafen belegt), die Zahl der aufzunehmenden Passagiere je nach der Grösse und Tüchtigkeit des Schiffes genau bestimmt und die Verproviantirung, sofern das Schiff nach einem Hafen der Vereinigten Staaten von Nordamerika segelt, auf die geringste Zeit von wenigstens 13 Wochen gesetzlich vorgeschrieben, wonach jeder Passagier ohne Rücksicht auf Alter und Geschlecht die gleichen Ansprüche an die tägliche Consumtion von Speise und Trank zu machen berechtigt ist. Jedes Schiff muss gesetzlich seine wohlversene Apotheke führen. Der Reisende hat gewöhnlich für sein Gepäck den Raum von 20 Cubikfuss frei, dagegen für Bett, Strohsack, Löffel, Messer und Gabel, Ess-, Trink- und Waschgeschirr selbst zu sorgen. Diese Utensilien sind an den Hafenplätzen billig zu kaufen und für den Bedarf der Auswanderer immer vorrätig. Geld, das der Auswanderer baar mitnimmt, bestehe aus französischen 5 Frs Stücken oder englischen Sovereigns, Sorten, welche in Amerika guten, gesetzlichen Cours haben. Die während der Reise nöthigen Sachen müssen die Passagiere in eine Kiste apart verpacken, welche sie bei sich behalten dürfen. Das übrige Gepäck wird im Schiffsraume, bezeichnet mit dem Namen des Eigners, weggestaut.

Die Vereinigten Staaten mit ihren Territorien reichen von dem Atlantischen Ocean bis westlich nach dem Stillen Meere, nehmen den mittleren Theil Nordamerikas ein, und haben im Norden die Britischen Besitzungen, im Süden den Golf von Mexico und die mexikanische Republik zur Grenze. Das ganze Gebiet liegt zwischen dem 25^o und 49^o nördlicher Breite und zwischen 66^o 59' und 123^o westlicher Länge von Greenwich, oder aber zwischen 10^o 01' östlicher und 48^o westlicher Länge von der Stadt Washington. Die grösste Länge von Osten nach Westen wird auf 3000 Miles, und die grösste Breite von Norden nach Süden auf 1700 Miles geschätzt, so dass das Ganze ein Areal von ungefähr 3,250,000 Quadrat-Miles umfasst. Die Grenzlinie beträgt etwa 10,000 Miles, wovon 3500 Miles die Küsten des Atlantischen Meeres und des Golfs von Mexico, und 1620 Miles die des Stillen Oceans und der Meerenge Juan de Fuca bilden. Die Oberfläche nimmt etwa den dritten Theil Nordamerikas mit Einschluss der Westindischen Inseln ein, und beträgt etwa den zwanzigsten Theil des gesammten Landes der Erde.

Die erste bleibende Niederlassung in den Vereinigten Staaten war in Jamestown in Virginien im J. 1607 gegründet, und die Staaten blieben eine englische Colonie bis zur Unabhängigkeitserklärung am 4. Juli 1776. Nach einem siebenjährigen Kriege ward Frieden geschlossen und durch einen im J. 1783 mit England abgeschlossenen Vertrag die Unabhängigkeit der Vereinigten Staaten anerkannt.

Die Bundesartikel wurden 1777 angenommen. Die jetzige, im J. 1787 entworfene Verfassung der Vereinigten Staaten trat am 1. März 1789 in Kraft, nachdem sie vorher von den dreizehn ursprünglichen Staaten der Union genehmigt war. Louisiana, welches die jetzt zu der Union gehörigen Staaten und Gebiete westlich vom Mississippi begreift, ward im J. 1803 von Frankreich, und Florida im J. 1819 von Spanien erkaufte. Texas ward durch einen am 1. März 1845 gefassten gemeinsamen Beschluss des Congresses in die Union aufgenommen, und New-Mexico und Californien durch einen im J. 1848 ratificirten Vertrag mit Mexico acquirirt. Doch schwabte im April 1850 die Frage noch, ob Californien zumal als Sklavenstaat, in die Union aufgenommen werden solle, und bildete den Gegenstand lebhafter Discussionen im Congress.

Die gegenwärtige Zahl der organisirten Staaten beträgt dreissig. In dem, ursprünglich aus Abtheilungen von Maryland und Virginia gebildeten Distrikte von Columbia liegt die Stadt Washington, seit 1800 der Sitz der Regierung der Vereinigten Staaten. Distrikt und Hauptstadt stehen ausschliesslich unter der Jurisdiction der Bundesregierung. Der Congress tritt daselbst am ersten Montage des Decembers jedes Jahrs zusammen, falls es nicht durch ein Gesetz an anders bestimmt wird.

Die Bevölkerung der Vereinigten Staaten belief sich zur Zeit des ersten Census im J. 1790 auf 3,929,827 Seelen; im J. 1800 auf 5,305,925; im J. 1810 auf 7,239,814; im J. 1820 auf 9,638,131; im J. 1830 auf 12,866,020, und im J. 1840 auf 17,068,666 Seelen. Nach diesem Zunahme-Verhältniss muss die Bevölkerung im J. 1850 wenigstens 23,000,000 Einwohner ausmachen.

Staatsschuld 66 Millionen Dollars.

Heer: 1848 ca. 25000 Mann.

Flotte: 12 Linienschiffe mit 914 Kanonen, 12 Fregatten I. Cl. mit 528 Kanonen, 2 Fregatten II. Cl. mit 72 Kanonen, 22 Corvetten à 18 bis 20 Kanonen, 4 Brigs à 10 Kanonen, 10 Schooner und 5 Bombenschiffe, 5 grosse Dampfschiffe mit 28 Kanonen, 6 grosse Dampfschiffe ohne Kanonen; ferner verschiedene Waarenschiffe.

Posten: 1847 zählten die Vereinigten Staaten auf 4,318 Poststrassen 15,146 Postämter. Einnahme der Post 3,956,000 Dollars. Die Poststrassen hatten eine Ausdehnung von 153,800 Meilen. Die Post beförderte 1847 ca. 59 Millionen Briefe.

Telegraphen: 1847 war der magnetische Telegraph in einer Ausdehnung von 6,780 M. in den Vereinigten Staaten in Thätigkeit.

Eisenbahnen: Vollendet und befahren bis 1847 5,770 Meilen. Seitdem ist das Eisenbahnnetz noch weiter entwickelt worden.

Canäle: Schiffbar und beschifft 1847 ca. 3,600 Meilen.

Die Segel- und Dampfschiffahrt auf den Seen und Strömen, verbunden mit den Canälen und Eisenbahnen, hat eine enorme Ausdehnung und ist fortwährend in staunenerregender Zunahme.

Hauptströme: Mississippi 2000 Meilen lang, Missouri 1800 Meilen lang, Ohio 1000 Meilen lang, Red-River 1500 Meilen lang.

Hauptseen: Ontario, Erie, Champlain, St. Clair, Huron, Michigan, Superior, d. h. obere See.

Die Waareneinfuhr in den Vereinigten Staaten betrug in dem mit dem 30. Juni 1847 zu Ende gehenden Handelsjahre 146,545,638 Dollars; die Ausfuhr an Erzeugnissen der Vereinigten Staaten 150,574,844, an Erzeugnissen fremder Länder 3,073,778.

Der Tonnengehalt der Handelsmarine beläuft sich jetzt auf reichlich 2,700,000 Tonnen, wovon der alte Theil beim Wallfischfang beschäftigt ist.

Kurzgefaßter grammatischer Auszug,

enthaltend

die unentbehrlichsten Wort- und Redeformen.

Artikel.

Deren giebt es zwei, den unbestimmten *a* (vor einem Consonanten) oder *an* (vor einem Vokal oder einem stimmlosen *h*), als: *a man*; *an eye* (si), *Aug*; *an hour* (aur), *Stunde*; und den bestimmten *the* (thl vor einem Vokal oder einem stimmlosen *h*; *the*, das *e* wie in *Witte*, vor einem Consonanten), als: *the art* (Kunst); *the heir* (ehr), *der Erbe*. Beide sind unabwandelbar.

Substantiv.

Die Abwandlung ist einfach: *z. B.*

Nom.	the father,	der Vater
Poss.	the father's,	des Vaters
Obj.	the father,	den Vater
to, from, by, in &c.	the father,	den Vater
Nom.	the fathers,	die Väter
Poss.	the fathers',	der Väter
Obj.	the fathers,	den Vätern
to, from, by, in &c.	the fathers,	die Väter

Der Plural wird im Allgemeinen durch die Hinzufügung eines *s* gebildet, als: *garden*, *gardens*, *tree* (Baum), *trees*. Doch sind folgende Endungen zu merken:

Wörter die auf *ch* (tsch), *sh*, *s*, *ss* oder *x* ausgehen, erhalten im Plural *es*, als: *birch*, *birches* (hörrtsches); *wash*, *washes* (wtsches); *rebus*, *rebuses* (ribtsches); *press*, *presses*; *fox*, *foxes*. Wird *ch* wie *k* ausgesprochen, so gilt die allgemeine Regel. *z. B.* *monarch*, *monarchs*.

Auf *o* erhalten die folgenden Wörter das *es*: *hero*, *heroes* (hirsches); *echo*, *echoes* (etsches); *buffalo*, *buffaloes*. Blos ein *s* bekommen *follo*, *nuncio*, *punctillo*, *seraglio* (sirälio). *Volcano* hat beide Endungen. *Cloth*, *Luch*; plur. *cloths*, *Lücher*, *clothes* (kloßs), *Kleider*.

f und *se* werden in *ves* verwandelt, als *wolf*, *wolves* (wulfs); *life*, *lives*.

ief bekommt blos ein *s*, als: *chief*, *chiefs*; *grief*, *griefs*. Ausnahme: *thief*, *thieves*.

oof, *ff*, *rf* folgen der allgemeinen Regel, als: *moss*, *mosses*; *hoof*, *hoofs*; *wharf*, *wharfs* (in *America* *wharves*, *wharves*). Ausnahme: *staff*, *staves*.

y. Geht derselben ein Consonant voraus, so wird *es* in *ies* verwandelt, als: *body*, *bodies*; *lady*, *ladies*; *fly*, *flies*. Geht ihm ein Vokal voran, so gilt die allgemeine Regel, als: *boy*, *boys*; *day*, *days*.

Unregelmäßige Pluralformen sind: *man*, *Mann*, *Menschen*; *men*; *woman*, *Woman*, *women*; *child*, *Kind*, *children*; *die*, *Würfel*, *dices*; *foot*, *Fuß*, *feet*; *goose*, *Gans*, *geese*; *louse*, *Laus*, *lice*; *mouse*, *Maus*, *mice*; *ox*, *Ochse*, *oxen*; *penny*, *den Englische Groschen*, *pence*; *tooth*, *Zahn*, *teeth*.

Der Possessiv Kasus (angelsächsisches Genitiv), im Sing. *'s*, im Plur. meistens *'s*, drückt Besitz aus, als: *My father's house*, *Meines Vaters Haus*. Bei

Wörtern, die auf einen Plural enden, folgt auch bei dem Plural, nicht man den Gen. mit *of* vor, als: *the prosperity of his sons*, die Wohlfahrt seiner Söhne. Zeit- und Raumverhältnis: *In an hour's time*. In Zeit von einer Stunde. *At a mile's distance*. In der Entfernung einer Meile.

Derselbe wird häufig allein stehend gebraucht, als: *I have been at the bookbinder's*, ich bin bei dem Buchbinder gewesen. *They are going to St. Paul's* (church), sie wollen nach der Paulskirche gehen. *The scheme was the captain's* (statt that of the captain). Der Plan war der des Kapitäns. *He is a soldier of the king's* (statt one of the king's soldiers), er ist einer von des Königs Soldaten.

Das Verhältniß der Theile zum Ganzen wird durch *of* ausgedrückt, als: *a yard of linen*, eine Elle Leinwand; *a morsel of bread*, ein Stück Brod; *a bushel of wheat*, ein Sömpfen Weizen.

Das Fürwort.

Die persönlichen Fürwörter heißen:

	Nom.	Poss.	Obj.
1ste Pers.	I, ich	My	me

	Nom.	Poss.	Obj.
1ste Pers. we, wir	our	ours	us
2te Pers. you, ihr, Sie	your	yours	you
3te Pers. they, sie	their	theirs	them

Der, die, das meinige, die meinigen heißt *mine*. Der, die, das übrige, die übrigen kann je nach der Bedeutung *hers*, *theirs* heißen. Die Ihrigen, yours. Folgende Redeweise ist zu merken: *He is a friend of mine* (hers, his, ours, yours, theirs), er ist einer meiner (seiner, ihrer u. s. w.) Freunde.

zurückstehende Form: *I myself*, ich selbst, *thou thyself*, du selbst, *he himself*, *she herself*, *itself*, (oneself, sich selbst), *we ourselves*, *you yourselves* (eine Person), *they themselves*.

Es selbst kann je nach Geschlecht, Kasus und Zahl heißen: *she herself*, *itself*, *yourselves*, *yourselves*.

Gegenseitigkeit: Sind es zwei Personen sagt man *each other*; bei mehr als zwei, *one*

another, als: they love each other, sie lieben einander.

Beziehende Fürwörter.

Who (hu), Poss. Cas. whose, Object. Casus whom beziehen sich auf Personen. Which (hulitsch) auf Thiere und Dinge. That auf beides, als: the man who (that) came, der Mann, welcher kam. The horse which (that) was sold, das Pferd, welches verkauft wurde. The man and horse that fell into the river, der Mann und das Pferd, die in den Fluß stürzten. Soll aber einer Person eine Eigenschaft beigelegt werden, so braucht man which, als: which is the eldest (richest, strongest) of his two brothers? welcher von seinen beiden Brüdern ist der Älteste (reichste, stärkste)? NB. what ist durchaus kein Relativum.

Folgende Befügungen vor whose, whom und which sind besonders zu berücksichtigen: We went on a visit to Mr. B., many of whose friends had already arrived, and on reaching whose house we were received with a hearty welcome, wir gingen Herrn B. zu besuchen, von welchem viele Freunde schon angekommen waren, und als wir bei ihm ankamen, wurden wir herzlich bewillkommen. It belongs to Mr. S., half of whose property, etc. Es gehört Herrn S., von dessen Vermögen die Hälfte u. s. w. He is a man, to gain whose esteem is my ardent desire. Er ist ein Mann, dessen Achtung zu gewinnen mein inniger Wunsch ist. I visited the ship the capture of which cost so much blood, ich besuchte das Schiff, dessen Begegnung so viel Blut kostete. This is an invention, the want of which would have been severely felt, dies ist eine Erfindung, deren Mangel sehr fühlbar gewesen sein würde. The warlike march of the barbarians at length reached a gloomy forest, from an opening in the centre of which the mysterious light was gleaming, der kriegerische Zug der Barbaren erreichte endlich einen düstern Wald, aus dessen Mitte aus einer Oeffnung das geheimnißvolle Licht hervorstrahlte. She has only two relatives, neither of whom she has seen for many years. Sie hat nur zwei Verwandte, von denen sie keinen seit vielen Jahren gesehen hat. And so many of whom, either of whom, some of which. Auch die Zahlen: ten of which, von welchen zehn, three of whom, von denen drei u. s. w. Der Infinitiv: My friend, to assist whom etc. Mein Freund, dem beizustehen u. s. w. Das Part. Act. in calculating which, bei dessen Berechnung, on seeing whom, als ich (er, sie u. s. w.) ihn sah. Das Part. Pass. they heard a noise, alarmed at which they ran away, sie hörten ein Geräusch, und dadurch erschreckt, liefen sie davon.

Fragewörter.

Who, wer; which, welcher, welche, welches; what, was für, was für ein, als: who is that man? wer ist jener Mann? which do you like best? welches gefällt Ihnen am besten? what man is that? was für ein Mann ist das? what did he say? was sagte er? What wird auch bei Anordnungen gebraucht, als: what a fine day! welcher ein

schöner Tag! what generosity! welcher Edelmut? Es entspricht dem deutschen das, was, als: From what I have heard, he must be clever. Nach dem, was ich gehört habe, zu urtheilen, muß er geschick sein. I remember what you said, ich erinnere mich dessen, was Sie sagten. What heist ferner der, die, dasjenige, welches, als: He had no food but what (that) which the sea-shore afforded him, er hatte keine andere Nahrung als diejenige, welche die Meerestüste ihm darbot. She gave the beggar what money she had about her, sie gab dem Bettler alles Geld, was sie bei sich hatte. Diejenigen, welche, als: He consulted with what friends (whose friends whom) he had remaining, er berathete sich mit denjenigen Freunden, die ihm übrig blieben. Man sagt auch all that (nicht what), Alles was; nothing that, nichts was.

Anzeigende Fürwörter.

Sing.: this, dieser, diese, dieses; that, jenes, jenes. Plur.: those, diese, those, jene.

In Beziehung auf Personen sagt man, Sing.: He who (that), derjenige, welcher, als: He whom you know, derjenige, welchen Sie kennen. She who lives opposite, diejenige, welche gegenüber wohnt. Sächlich: That which. Personen: Plur.: They oder those who; sächlich: those which. Bei Personen, lebenden und leblosen Dingen heißt auch such als diejenigen, welche. Ferner: He has two brothers, William and John, the former is clever, the latter stupid, er hat zwei Brüder, Wilhelm und Johann, jener ist geschickt, dieser dumm.

Unbestimmte Fürwörter.

Another, ein anderer. — Any, irgend ein. — Both, beide. — Each, jeder (keine Anzahl). — Every, jeder (alle). — Either, der Eine wie der Andere. — Every body, any body, every one, any one, jeder, Jedermann. — Nobody, no one, Niemand. — Other, ander. — Neither, keiner von beiden. — No, kein. — None, keins, keinen, keine. — Some, einiger, e. d. etwas. — One, Einer, Jedermann, man. — Little, wenig, plur. few, wenige. — Much, viel, plur. many, viele. — All, alles, alle. — Several, mehrere. — Such, solcher, e. d. — Whoever, wer auch immer. — Whichever, welches immer. — Whatever, was auch immer.

Any beziehet die ganze Gattung, als: Any thing you like, was Sie nur immer wollen. Any one can tell you that, das kann Ihnen Jeder sagen. Is any one there? ist Jemand da? If I had any, wenn ich welches hätte. Wenn das deutsche Bei de eine trennende Bedeutung hat, so wird es im Englischen durch either ausgedrückt, als: either road will lead you to the town, beide Wege werden Sie nach der Stadt führen. One of the two, einer von beiden, which of the two, welches von beiden. The others, die Andern, the other books, die anderen Bücher, the others' books, die Bücher der Andern. I have no money, ich habe kein Geld, have you any? haben Sie einiges? they have none, sie haben keins. Each of us, Jeder von uns. Every citizen, jeder Bürger.

Das Fürwort man, Einer. (Genitiv sein.)

Ueber den Gebrauch folgender Wörter entscheidet der Geschlecht.

one,	Genit. one's.
a man,	- a man's, his.
men	- their.
you,	- your.
we,	- our.
they, people	- their.
the world	- their.
folks,	- their.

Bei der wiederholten Anwendung des one in derselben Sage muß man sich hüten und lieber ein anderes Wort gebrauchen. Die auf one u. f. w. bezüglichen persönlichen Fürwörter müssen mit denselben an Zahl und Geschlecht immer übereinstimmen. Beispiele:

One must do one's duty; a man must do his duty; men must do their duty; we must do our duty, man muß seine Pflicht erfüllen. A man's life is often spent before he comes to years of discretion, (unser) das Leben ist häufig dahin, ehe man zur Vernunft kommt. When you ascend the hill, you will see a house, wenn man den Berg hinauf geht, sieht man ein Haus. If folks don't know their own minds, wenn man selber nicht weiß, was man will.

Ist von einem Gerichte die Rede, so sagt man they, people. They say he was mistaken, man sagt, daß er sich irrte. People are of opinion that ..., man meint, daß ...

Folgt auf man ein transitives Verbum, so wendet man in der Regel die passive Form an, z. B. He is known to be clever, man weiß, daß er gekleidet ist. It may be easily supposed that ..., man kann sich leicht denken, daß ... She was believed at once, man glaubte ihr ohne Weiteres. Peace is said to be concluded, man sagt, daß der Friede geschlossen sei. I am not to be imposed on, mich soll man nicht betrügen.

Hilfszeitwörter.

I can, ich kann; he could, er konnte; bezeichnet Fähigkeit, als: she can speak English, sie kann Englisch sprechen. I may, I might, bezeichnet Möglichkeit und Wahrscheinlichkeit: He may be at home, er kann (mag) wohl zu Hause sein. They might have been mistaken, sie konnten sich möglicherweise irren. Erlaubnis: may I go out? darf ich ausgehen? You may do as you please, thun Sie, was Sie wollen. He might go out or stay at home, er konnte (durfte) nach Belieben ausgehen oder zu Hause bleiben. Guten Muth: May you be happy, mögen Sie glücklich sein.

Shall, should; will, would. Im Englischen steht eine dem deutlichen werden entsprechende Form. Ich werde heiße: I shall, wir werden: we shall. Bei den anderen Personen sagt man will; he, she, it, you, they will, er, sie u. f. w. werden und wollen. Gedenke im Imperf. I should, we should, ich würde, wir würden. Will gebraucht man bei Verheißungen, Drohungen, überhaupt bei der emphatischen Rede. Bei Fragen

sagt man: shall you? werden Sie? should you? würden Sie? (Kann auch: sollten Sie? heißen.) Bei den anderen Personen will, als: wilt thou? wirst und willst Du? will he, she, it, you, they? wird und will er, sie u. f. w. Shall I see you? werde ich Sie sehen? shall we go? wollen wir gehen? are we to come early? sollen (müssen) wir früh kommen? (Hierüber siehe man Spörckill's Englische Grammatik.) Will und would werden auch häufig gebraucht, eine Gewohnheit anzuzeigen, als: He would come regularly every day, er pflegte regelmäßig alle Tage zu kommen. Such accidents will frequently occur, solche Unfälle ereignen sich häufig.

Ought bezeichnet Verpflichtung, Obliegenheit. Es hat nur das Präsens, und erfordert das Zeichen des Infinitivs zu stets nach sich, als: He ought to consult his friends, er müßte seine Freunde um Rath fragen. They ought to endeavour to appease his anger, sie müßten versuchen, seinen Zorn zu besänftigen.

Must hat nur das Präsens und ist völlig unbedingbar. Es bezeichnet Zwang und Folgerung wie im Deutschen, als: She must write to her parents, sie muß an ihre Aeltern schreiben. They must agree to our conditions, sie müssen auf unsere Bedingungen eingehen. He must be there by this time, jetzt wird (muß) er wohl da sein. Bei der vergangenen und zukünftigen Zeit gebraucht man häufig to have, wie im Deutschen haben, als: I had to pay ten dollars, ich mußte zehn Thaler bezahlen. They will have to beg his pardon, sie werden ihn um Verzeihung bitten müssen. The house will have to be repaired, das Haus wird ausgebessert werden müssen. We shall have to ..., wir werden ... müssen. She has had to ..., sie hat ... müssen. I had had to ..., ich hätte ... müssen.

To do.

Dieses Hilfszeitwort ist im Englischen von ausgedehntem Gebrauch, und zwar:

1) bei allen Fragfragen, nur dann nicht, sobald ein Hilfszeitwort schon vorhanden ist, oder wenn who, which und what im Nominativ stehen, als: Do you see him? sehen Sie ihn? did they say so? sagten sie es? who wrote the letter? wer schrieb den Brief? which house belongs to him? welches Haus gehört ihm? what caused his death? was veranlaßte seinen Tod? a better whom does he love? wen liebt er? which horse did you buy? welches Pferd kauften Sie? what hour did they fix? welche Stunde bestimmten sie? Has any one called? hat Jemand vorgeschrien?

2) bei Verneinungen, und zwar im m. er, ausgenommen, wenn ein Hilfszeitwort schon vorhanden ist, als: I do not see him, ich sehe ihn nicht. They did not say so, sie sagten es nicht. Who did not write the letter? wer schrieb den Brief nicht? Which house does not belong to him? welches Haus gehört ihm nicht? What did not cause his death? was veranlaßte seinen Tod nicht? A better: He was not present, er war nicht gegenwärtig. We shall not trouble him, wir werden ihn nicht belästigen.

3) als Bitte: Come, do, kommen Sie doch. Now do tell me, bitte, sagen Sie mir doch. Leave off, do, laß doch das.

4) Nachdruck: They do say, man sagt zwar.

Kurzgefaßter grammatischer Auszug.

They did think, that ..., sie glaubten zwar, daß ... Yes, he did, daß that er wohl.

5) wird es gebraucht, um die Wiederholung eines Zeitwortes zu vermeiden, als: I shall not write to him yet, but when I do ich werde noch nicht an ihn schreiben, sobald ich aber schreibe ... Do you know him? yes, I do; kennen Sie ihn? ja. You dont (do not) pay attention. Yes, I do, Sie passen nicht auf. Doch, daß thut ich wohl!

To be, sein und werden, wenn dies Letztere passivische Bedeutung hat. She is happy, sie ist glücklich (Gemüthszustand); he was fortunate, prosperous, lucky, er hatte Glück. Mit going verbunden heißt es: wollen, im Begriff sein, als: What were you going to observe? was wollten Sie bemerken? What is he going to do? was will er machen, vornehmen? They were just going to set out, sie wollten eben abreisen. In Verbindung mit dem part. activ. eines andern Zeitwortes drückt es Gegenwart und Fortdauer der Handlung, Gleichzeitigkeit und Beschäftigung aus, als: What are you doing? was machen Sie da? I am reading, ich lese. I have just been thinking ..., ich habe mir so eben gedacht, daß ... What has he been doing? woult hat er sich beschäftigt? was hat er gemacht? He was travelling when they last heard of him, er war auf Reisen, als sie die letzte Kunde über ihn bekamen. Nun, ihm die Fortdauer des Leidens auszudrücken, bedient man sich ebenfalls des part. activi: The house is building (oder being built), das Haus wird (jetzt) gebaut. The fleet was sitting out (oder was being fitted out), man rüstete (zu der Zeit) die Flotte aus. The barn will be building when you return, die Scheuer wird im Bauen begriffen sein, wenn Sie zurückkehren. Ist aber von Vollendung die Rede, so gebraucht man die gewöhnliche Form, als: How much has he written? wie viel hat er geschrieben? She has read the book through, sie hat das Buch durchgesehen. In Verbindung mit einem Infinitiv drückt es das sollen, müssen aus, als: I was to do many small things, ich sollte viele kleine Geschäfte verrichten. He was to lie that night at a neighbour's, er sollte die Nacht bei einem Nachbar zubringen. Well, if I am to be imposed upon ... Gut, wenn ich betrogen werden soll ... muß ... The horse is to be sold, das Pferd soll verkauft werden. They were to be summoned, sie sollten vorgeladert werden.

To have.

Beicht vom Deutschen in folgenden Redeformen ab:

1) Wenn lassen die Bedeutung veranlassen hat, als: I have a coat made, ich lasse einen Rock machen. They will have a house built, sie wollen ein Haus bauen lassen. He has had his hair cut, er hat sich das Haar schneiden lassen.

2) Ein Leiden und Erleben, als: He has had his arm broken, ihm ist der Arm gebrochen worden. They have had their property destroyed, ihnen ist ihr Eigenthum vernichtet worden. We often had the traveller or stranger visit us, wir wurden oft von Reisenden oder Fremden besucht. I wont (will not) have you constantly meddling

with my affairs, Sie sollen sich nicht immerfort in meine Angelegenheiten mischen.

3) Mit would verbunden bezeichnet es einen Wunsch, eine Neigung, als: We would have you reflect on it, wir möchten, daß Sie es überlegen. Would you have me ruin myself? möchten Sie, daß ich mich zu Grunde richte? They would not have you thought a fool, sie möchten nicht, daß man Sie für einen Narren hielt.

4) In Verbindung mit better oder best drückt es einen Rath aus, als: You had better conclude the bargain, Sie thäten am Besten, den Handel abzuschließen. Had you not better give him notice? wäre es nicht besser, Sie setzen ihn in Kenntniß? She had better stay where she is, sie thäte am Besten, zu bleiben, wo sie ist.

Die verschiedenen Bedeutungen der deutschen Hilfszeitwörter, nebst den entsprechenden englischen Redeformen.

Mögen

bezeichnet, nebst dem Begriffe der Möglichkeit und Wahrscheinlichkeit, auch eine Vorliebe, Neigung, als: Ich mag ihn gern. I like him. Sie möchten sie singen hören, they liked to hear her sing. Ich möchte sie besuchen, I should like to visit them. Ich hätte ihn gern sehen mögen, I should have liked to see him. Mögen Sie die Musik? do you like (are you fond of) music?

Wollen

Stehe oben to be going, im Begriff sein.

Sollen

1) Ein Gerücht, als: Er soll reich sein, he is said to be rich. Sie soll (man sagt, daß sie) der Parthie abgeneigt sein, she is said to be averse to the match. Es sollten zehn Mann vernicht werden, ten men were said to be missing.

2) Höllesten eine Verpflchtung, als: Er hätte sich besser versehen sollen, he ought to have (should have) been more cautious. Sie hätten sich nicht entzweien sollen, they should not have (ought not to have) quarrelled.

Werden

Im Englischen giebt es, wie schon oben bemerkt worden, kein Wort, welches diesem Zeitworte entspräche. Die deutschen Bedeutungen desselben sind:

1) Zukunft, als: er wird kommen, he will come. Sie werden benachrichtigt werden, you will be informed.

2) Den Begriff des Leidens, als: Er wurde geliebt, he was beloved. Das Haus wird gebaut, the house is building (being built). Sie wird angekleidet, she is dressing.

3) In einen gewissen Zustand gerathen. Hierbei bedient man sich mehrerer Zeitwörter, als:

To become. He became poor, er wurde arm. As soon as he became satisfied of my sincerity, sobald er von meiner Aufrichtigkeit überzeugt warb.

To grow. She grew pale, sie wurde blaß. He is growing old, er wird alt. She grew quite angry with us, sie wurde ganz böse auf uns.

To turn. He is determined to turn soldier,

er ist entschlossen, Soldat zu werden. His hair is turning grey, sein Haar wird grau.

To fall: He fell ill, er wurde krank. She fell a crying, sie fing an zu weinen.

To go: I shall go distracted if you make such a noise, ich werde von Sinnen kommen, wenn Sie einen solchen Lärm machen. The dog went mad, der Hund wurde toll.

To get: He first got rich and then got married, erst wurde er reich und dann heirathete er. Get ready, macht Euch fertig. You will get blamed if you don't change your way of life, Sie werden getadelt werden, wenn Sie Ihre Lebensweise nicht ändern.

Ich hätte können . . . I (could) have

— — — sollen . . . should —

— — — wollen . . . would —

— — — müssen . . . ought to —

Kommt zu dieser deutschen Redeform noch ein Infinitiv hinzu, als: ich hätte leben können, so wird im Englischen statt des Infinitiv's das Part. Pass. gebraucht: I could (might) have loved.

Folgende Redeformen sind zu merken: I shall have been, ich werde gewesen sein.

He would — — — er würde — —

She (might) — — — sie hätte sein können.

It ought to — — — es hätte sein müssen oder sollen.

We would have been, wir wären gewesen oder hätten sein wollen.

You should — — — Ihr hättet sein sollen oder müssen.

Bei dem Gebrauche der vergangenen Zeit weicht die Englische Sprache ebenfalls von der Deutschen ab, und an der schlechtesten Anwendung derselben erkennt man den Ausländer augenblicklich. Eine vergangene Handlung fällt entweder in einen völlig vergangenen Zeitabschnitt, als: gestern, vorige Woche, vorigen Monat u. s. w., oder in eine Zeit, die den gegenwärtigen Augenblick in sich schließt, als: heute, diese Woche, dieses Jahr. Im ersten Falle gebrauchen die Engländer stets das Imperfectum; z. B.: I was at the play last night, gestern Abend bin ich im Schauspiel gewesen. The ship sailed a month ago, das Schiff ist vor vier Wochen abgesegelt. He wrote to his brother some time ago, er hat vor einiger Zeit an seinen Bruder geschrieben. Did they visit the Louvre when they were at Paris? haben sie das Louvre besucht, als sie in Paris waren?

Im andern Falle gebraucht man das Perfectum z. B.: Have you made a journey this year? haben Sie dies Jahr eine Reise gemacht? We have not been to see him this week, wir haben ihn diese Woche nicht besucht. They have not been heard of for many years, man hat seit vielen Jahren nichts von ihnen gehört.

Kurze Gespräche und Redensarten

mit Rücksicht auf die grammatischen Formen.

How do you do? — Wie geht es Ihnen?

Quite well, thank you. And you? — Ganz wohl, danke. Und Ihnen?

REMARKS.

Bemerkungen.

The digraphs ai or ay, always have the sound of the long a (ä), unless otherwise marked.

au and aw sound like broad a (ä), as in haul, shawl.

ae, ea, ee, ei and ie, always have the sound of the long e (ē), unless otherwise marked.

eu, ew and ui sound like long u (ü or u), as in feud, new, unless otherwise marked.

oa sounds like long o (ö), as in boat.

oe sounds like long o (ö), as in goes, unless otherwise marked.

oi or oy has its proper sound (the german sound eu), as in loiter, boy.

oo sounds like french ou (ü), as in fool, room.

When one vowel of a digraph is marked, it has the sound designated by the mark, the other vowel is quiescent, as in appear, course, loan, bow etc.

Die Digraphen ai, ay haben stets den Laut des langen a (ä), sobald sie nicht anders bezeichnet sind.

au und aw lauten wie das breite a (ä, wie o in Ordnung); wie haul, shawl.

ae, ea, ee und ie, werden immer wie das lange e (ē) ausgesprochen, sobald sie nicht anders bezeichnet sind.

eu, ew und ui lauten wie das lange u (ü oder u, ja), wie in feud, new, wenn sie nicht mit einer andern Bezeichnung versehen sind.

oa hat den Klang des langen o (ö), wie in boat.

Ausnahmen sind broad, groß.

oe lautet, wenn nicht anders bezeichnet, wie das lange o (ö), wie goes.

oi, oy haben den Laut des Deutschen eu, wie in loiter, boy.

oo hat den Laut des Deutschen u (ö), wie in fool, room. Doch giebt es viele (bezeichnete) Ausnahmen.

Wenn ein Vocal eines Digraphs bezeichnet ist, so bekommt er den durch die Bezeichnung vorgeschriebenen Laut; der andere Vocal ist stumm, wie in appear, course, loan, bow, u. f. w.

The diphthongs ou and ow (distinguished from the digraphs ou, ow) are pronounced as in sour (ssaur), sound (ssound).

b after m is always mute, as in dumb.

c after s, and before e, i, y, is usually mute, as in sceptre, scimitar, Scythian.

e final is usually mute; in the termination en, e is usually mute, as in broken.

g and k before n are mute, as in gnaw, knave.

gh is quiescent, as in light, sight, unless in words otherwise marked (as enough, laugh etc.).

h after r is always mute, as in rhyme.

i in the termination ive, ible, is always short, as in relative, possible.

l is mute before f, k, m, as in half, walk, calm.

n after m belonging to the same syllable is mute.

p is mute before s and t, as in psalter, ptialism.

ph is pronounced like f, as in philosophy; but silent in phthisic.

s before m has the soft sound of z, as in spasm.

w before r is mute, as in write, wrong; in words beginning with wh, h after w is pronounced before it, as in what (pronounced hwat), which (hwich).

y (without a mark) at the end of words, is short, like i in pit, as in probity.

Letters in italics are not sounded, as in knot, metal, whole, whose.

The letters ce, ci, ti, before a vowel, are pronounced like sh, as in ocean (oshun), gracious (grashun) etc.

The termination tion sounds like shun, as in affection, nation; the termination sion, after a consonant, is also pronounced shun, as in concession; but after a vowel it has a softer sound, like zhun, as in diffusion; exceptions are noted in crotchets.

The termination sler or zler, is pronounced zher or zhur, as in osler (oxher), brazler (brazhur), but when accented, it has the sound of seer, as in cuirassier.

The vowel e in the termination ed in the customary pronunciation is omitted, as in delivered (delivered), charmed (charmd); but after d and t this termination (ed) is pronounced as a distinct syllable, as in abraded, dejected.

The accented syllable is always designated by this mark (').

The double accent after e or i, and before ci and ti, indicates that the preceding syllable ends with the pronunciation of sh; thus: pre'cious (presh'us), off'cious (offish'us), vi'ciate (vish'ate), discre'tion (discresh'un).

The double accent between n and g indicates that the g is drawn back to the preceding syllable, as in an'ger, sin'ger (pronounced ang'ger, sing'ger).

Die Doppellaute ou, ow (von den Digraphen ou, ow zu unterscheiden) lauten wie in sour (ssaur), sound (ssound).

b nach m ist immer stumm.

c nach s und vor e, i, y ist meistens stumm, wie in sceptre, scimitar, Scythian.

Der Endvocal e ist immer, in der Endsyllabe an meistens stumm, wie in broken.

g und k vor n sind stumm, wie gnaw, knave.

gh ist, mit einigen bezeichneten Ausnahmen (wie enough, laugh u. s. w.), stumm, wie in light, sight.

h nach r ist immer stumm, wie rhyme.

i in der Endsyllabe ive, ible, ist stets kurz, wie in relative, possible.

l ist stumm vor f, k, m, wie in half, walk, calm.

n nach m zu derselben Sylbe gehörend ist stumm, wie in damm.

p ist stumm vor s und t, wie in psalter, ptialism.

ph hat die Aussprache des f, wie in philosophy; ist aber stumm in phthisic.

s vor m hat den weichen Laut des z, wie in spasm.

w vor r ist stumm, wie in write, wrong. Bei Wörtern, die mit wh anfangen, wird h zuerst ausgesprochen, wie in what (hwat), which (hwich).

Der unbezeichnete Endvocal y ist kurz wie i in pit, z. B. probity.

Buchstaben in Curivschrift werden nicht ausgesprochen, wie in knot, metal, whole, whose.

ce, ci, ti vor einem Vocale lauten wie sch, wie in ocean (osh'n), gracious (grëshöös).

Die Endsyllabe tion lautet wie sch'n, wie in affection, nation; dies gilt ebenfalls von sion nach einem Consonanten, wie in concession. Nach einem Vocale aber hat es einen weichern Laut, wie in dem französischen je, wie in diffusion. Die Ausnahmen sind in Klammern angegeben.

Die Endsyllaben sler, zler haben den weichen Laut des französischen je. wie in osier, brazier; accentuirt aber lautet sie sſir.

e in der Endsyllabe ed ist meistens stumm, wie in delivered (delivered), charmed (charmd). Nach d und t aber wird die Endsyllabe ed vollständig ausgesprochen, wie in commanded, detected.

Die accentuirte Sylbe ist stets mit diesem Zeichen (') versehen.

Der Doppelaccent nach e und i, und vor ci und ti zeigt an, daß die vorhergehende Sylbe mit dem Laute sch endet, z. B. pre'cious (pre'shöös), off'cious (off'shöös), vi'ciate (wi'shi-eh), discre'tion (discre'sh'n).

Der Doppelaccent zwischen n und g deutet an, daß g zu der vorhergehenden Sylbe herübergezogen wird, wie in anger (ang'ger), anger (sing'ger).

Nom.	e	e	e	en	en	en
Gen.	er			en	en	en
Dat.	en			en	en	en
Acc.	e			en	en	en

Rules.

1. The Strong Form is used, when the adjective is not preceded by the article, dieser, jener, derselbe, derjenige, welcher, solcher, aller, einiger, mancher, jeder, verschiedener, folgender, erwähneter.

Rem. An adjective, preceded by the indef. art. or the possessive pronouns, mein, dein, sein, unser, euer, thy assumes the strong terminations in the nominative masc. and neut., and in the accusative neut., the other cases take the weak terminations.

2. The weak terminations are used, when the adjective is preceded by the words named in the preceding rule.

Decline: der gute Vater, the good father; die gute Mutter, the good mother; das gute Kind, the good child; guter Wein, good wine.

Degrees of Comparison.

The Comparative is formed by adding *er* to the positive (*r* only when the positive already ends in *e*), the Superlative, by adding *st* (st when the superlative cannot be pronounced without the *e*).

a, o, u are mostly changed into ä, ö, ü in the Comparative & Superlative.

Examples.

arm, ärmer, armst; groß, größer, größt.
Adjectives compared irregularly:
wenig { weniger, { wenigst.
 { minder, { mindest.
viel, mehr, meist.
gut, besser, best.

The Comparative & Superlative are declined like the Positive.

O, o long, as in Ofen, löbt (= o in note).

ō, o short and sharp, as in Of, löbt (= o in hot).

Also the variation **ō**: **ō** as in Of, löben = the french ou in leur, peur; **ō** as in öfter, similar to i in bird.

U, u long, as in Ufer, gut (= oo in tool).

ū, u short, as in Ulme, lustig (= oo in book).

Likewise the variation **ū**: **ū** as in über, büssen = the french u in ruse; **ū** as in üftern = the french u in butte.

y and **ÿ** have the sound of **i** (i. which see).

For the pronunciation of the marked letters **e**, **ē**, **ch**, **ch**, **g**, **h**, vide the consonants.

All the unmarked vowels and variations of nouns and adjectives have their short, natural sound.

e in the terminations **sen**, **ten**, **ein**, **ern**, **ent**, **end**, **er**, **re**, **ter**, **ber**, **ter** **z.** of verbs and substantives, has a softer and shorter sound than **ē** (= e in hunter, pinner), as in: **malen**, **hailen**, **sammeln**, **Bruder**, **Käse**, **Beutler** **z.**

ei has the sound of the English **i** in **line**, **pine**, **wine**. As a dissyllable the **i** is marked with two dots, as in **Heterogenität** (**Hetero-gene-ität**).

i sounds like **i**: **die**, **Riere** (= i in marine). As a dissyllable the **i** is marked with two dots, as in **Rille** (**Riit-e**), **Gerarchie** (**Gi-erarchie**).

aa sounds like **ā**: **Mal**.

ee like **ē**: **Seele**; **same**. As a dissyllable the first e is marked with two dots, as **beenden** (**be-enden**), **beilen** (**be-eilen**).

oo has the sound of **ō**: **Roos**, **Roos**; **to boast**.

au has the sound of the English **ou** in **house**.

au and **eu** are almost equivalent to the English **oi**, **oy** in **molst**, **boy**; as in **Käufer**, **Freude**, **Leute**.

Consonanten.

Die nicht aufgeführten Consonanten sind in der Aussprache den englischen gleich.

c vor a, o, u und au oder vor einem Consonanten lautet wie k und ist in diesem Falle mit einem Querstrichchen versehen (c), wie in Candidat, cast, xc.; vor e, i, y und den Umlauten ä, ö und ü lautet es aber wie ts, mit Ausnahme einiger Städtenamen, wo es ebenfalls wie k lautet, wie in Köln, Cöthen, Cüstrin.

ch als weicher Gaumenlaut tönt etwas härter als y in dem Worte yellow, z. B. weich, Chemie, nicht, Licht, sichtlich xc.; als harter Gaumenlaut und mit einem härtern Hauche ausgesprochen, ist er so bezeichnet: ch, wie in Rache, Dach, ruchtbar xc. und kann durch einen englischen Laut nicht ersetzt werden; wo das ch wie k oder c ausgesprochen wird, ist es folgendergestalt bezeichnet: kh, wie in Charakter, Christ; character, xc. In Wörtern französischen Ursprungs lautet es wie sch (-sh), und ist solchenfalls diese Aussprache in Klammern beigefügt.

d steht für ff, wie in Gede, fiden, lesen; ecclesiastic.

g lautet im Allgemeinen wie das englische g in give, god etc., ausgenommen in der Endsilbe ig, wo es wie der weiche Gaumenlaut ch oder y wie in dem Worte yellow, year klingt (vergl. j; Jod, den Consonant), und ist alsdann mit einem Punkte bezeichnet: g, wie in wogig, gültig, Gütigkeit, ewig etc. In einigen Ländern Deutschlands wird es auch in den Silben ag, aug, og und ug mit einem Hauche ausgesprochen, ähnlich dem ch, jedoch weniger hart, wie in Magd, Jagd, Auge, saugen, sog, Bogen, Jugend, Zugend xc.

h, wenn es mit einem starken Hauche ausgesprochen wird (wie h in have), ist mit einem Strichchen bezeichnet: h, wie in Sand, haben, gehört xc.; zwischen zwei Vokalen stehend, wird es mit einem ganz leichten Hauche ausgesprochen, wie in sehen, gehen, ruhen xc.; in allen übrigen Fällen aber ist es stumm und dient, wenn es nach einem Vokale oder Umlaute folgt, zur Verlängerung oder Dehnung der Silbe, z. B. Zahl, ihn, kehren, froh xc.

j (Jod, der Consonant) lautet wie y in year: z. B. ja, jeder, Jammer xc.

u vor g und f hat einen Nasenton und lautet wie n in anger, ink; so in den Wörtern Gesang, Ding, Gang, Dant, stinken; bei der Beugung eines Hauptwortes oder Adjektivs aber und im Comparativ und Infinitiv nimmt es einen weichern und gelindern Nasenton an, wie in Gesang, Gefänge, Sandlung, Sandlungen, lang, länger, laugen, singen, gesungen.

ph lautet wie f: Philosophie; philosophy.

qu lautet wie qu in queen.

sch lautet wie sh.

s lautet wie o in rice.

ti vor einem Vokale lautet wie tal, wie in Ratio n, Motion, Martial, Exercitium xc.

v lautet wie f, in fremden Wörtern wird es aber mehrentheils wie das englische v ausgesprochen, wie in laviren, Favorit xc.

w lautet durchgängig wie das englische v.

z lautet wie ts, wie in tsarg; ß lautet wie ein doppelttes z, wie in troßen xc.

Consonants.

The consonants not adverted to have the same pronunciation as in English.

c before a, o, u and au, or before a consonant sounds like sand is in this case marked with a small cross-line (c), as in Candidat, cast. Before e, i, y and the variations ä, ö and ü it has the sound of ts, some few names of Towns excepted, in which it also sounds like k, as in Köln, Cöthen, Cüstrin.

ch as a soft palatal sounds rather more aspirated than y in yellow, as: weich, Chemie, nicht, Licht, sichtlich. As a harsh palatal with a stronger aspiration it is marked: ch, as in Rache, Dach, ruchtbar; it has no corresponding sound in English. When ch is pronounced like k or c, it is marked thus: kh, as in Charakter, Christ; character. In words of french origin it has the sound of sh (sh), in which case this pronunciation is annexed in crochets.

d stands for ff, as in Gede, fiden, lesen; ecclesiastic.

g has in general the same sound as in English in give, god, excepting in the final syllable ig, when it sounds like the soft palatal ch, or like y as in year (see j; Jod, the consonant), and is then marked with a dot: g, as in wogig, gültig, Gütigkeit, ewig. In some States of Germany it is also pronounced in the syllables ag, aug, og and ug with an aspiration similar to ch; but less forcibly, as in Magd, Jagd, Auge, saugen, log, Bogen, Jugend, Zugend etc.

h when strongly aspirated (like h in have), is marked with a small stroke, thus h, as in Sand, haben, gehört. Between two vowels it has a gentle aspiration, as in sehen; gehen, ruhen. In all other cases it is mute and, preceded by a vowel or a variation, serves to lengthen the syllable, as: Zahl, ihn, kehren, froh.

j (the consonant j) always sounds like y in year, as: ja, jeder, Jammer.

u before g and f has a nasal sound like n in anger, ink, as: Gesang, Ding, Gang, Dant, stinken. But in the variation of nouns or adjectives, and in the Infinitive it has a softer nasal sound, as in Gesang, Gefänge; Sandlung, Sandlungen; lang, länger; laugen, singen, gesungen.

ph has the sound of f, as: Philosophie; philosophy. qu like qu in queen.

sch like sh.

s like o in rice.

ti preceding a vowel has the sound of tee, as in Ratio n, Motion, Martial, Exercitium.

v like f, except in words from foreign languages, in which it is pronounced v, as: laviren, Favorit.

w has the sound of the English v.

z like ts, as: tsarg. ß like a double z, as: troßen.
